and AEROSPACE WORKERS**  
**DISTRICT LODGE 5**

Putt for Pups is an Annual Charity event put on by the International Association of Machinists and Aerospace Workers. This yearly golf tournament raises money for Guide Dogs of America. For over 70 years GDA and IAMAW have worked together as a team.

GDA and the IAMAW collaborate, inspire, and fundraise to provide expertly matched guide dogs to legally blind individuals from the USA and Canada so they may live their lives with greater confidence, mobility, and independence. These extraordinary dogs and personalized instruction in their care and use, are provided by GDA at no cost. In addition to breeding and training highly qualified dogs, GDA determines each client's individual situation in order to create the ideal match that cultivates true companionship.

We are looking for Companies and Individuals who would like to donate a basket with goods or services for our Raffle, Sponsorships (see brochure for levels), and individuals or teams to participate in the tournament. 100% of the profit goes directly to Guide Dogs of America. If you would be interested in donating, please contact me at the below phone or email.

Thank you so much for your time and donation.

### **The Dream Becomes a Reality**

The partnership between GDA and IAMAW began in 1948 because Joseph Jones, a retired IAMAW member who lost his vision, was rejected by then existing guide dog schools because of his age. Joseph decided to start his own school and turned to his union brethren. The IAMAW felt it was wrong to discriminate against a person because of his age and supported Joseph in the founding of a new guide dog school without an upper age limit policy.

**GDA continues to expand its nondiscrimination policy and determines recipients without regard for age, gender, race, religion, ethnicity, or economic means.**

Although GDA is an independent organization, historically the GDA President is a former IAMAW employee. GDA is appreciative of the IAMAW's continued support and excited about the boundless potential of the GDA/IAMAW collaboration.
