Levi Wilson, President

INDUSTRIAL LODGE 751-A

International Association of Machinists & Aerospace Workers
Derek Gottschalk, Recording Secretary

Dear Friend,

I would like to introduce you to a wonderful Organization, Guide Dogs of America. The International Association of Machinists and Aerospace Workers founded Guide Dogs of America in 1948, when one of their retired members, Joseph Jones, Sr., was denied a guide due to his advanced age. Since then, Guide Dogs of America has bred, raised and trained some of the world's most dedicated dogs and paired them with visually impaired individuals of all ages, races and beliefs, from all over the United States and Canada. The freedom and independence a guide dog brings to a visually impaired person is immeasurable.

With the need for highly qualified service dogs continuously growing, in January of 2020, Guide Dogs of America merged with Tender Loving Canines. This organization provides a service dog who is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability. Together we now help veterans, individuals who are blind and children with autism. This greatly expands the number of high quality service dogs that we can provide and puts more dogs into the hands of people who need them.

Guide Dogs of America breeds, raises and trains these dogs at their facility, near Los Angeles, CA. After the dog is trained, the client is then carefully matched with a service dog, taking into consideration their lifestyle and environment. In addition, the personalities of student and service dog, size, strength, pace of walk, energy levels and other special requirements are considered to ensure a harmonious relationship. Guide dog teams are housed at the facility and spend 24-hours a day for twenty-one days on campus, while service dog teams spend twenty-one days remote training and then 24-hours a day for ten days on campus. Upon completion, an awards ceremony is held for students, dogs, friends and family members. The graduates then return home with their new partner and a renewed sense of freedom and independence.

The cost of breeding, raising, training and finally pairing a quality dog to a visually impaired person exceeds \$60,000. All services, including the guide or service dog, harness, in-residence training and lifetime follow-up, are free-of-charge to all clients. Since its founding in 1948, Guide Dogs of America has graduated over 3,300 guide and service dog teams throughout the United States and Canada.

Our sole purpose is to use the Steel & Wheel Car Show to raise money for Guide Dogs of America. Because of this event, we were able to give Guide Dogs of America \$17,258.53 in donations last year. Our goal for this year is \$20,000. This car and motorcycle event is held the 3rd Saturday in August each year and includes food, music, games and raffle drawings with many prizes and awards to be given away. Please join us on this special day. All proceeds go to benefit Guide Dogs of America!

Thank you for your generosity!

Sincerely,

Kristi Kidrick, Event Coordinator
